Mr. Michael Gonzales
Remedial Project Manager, Code 5DEN.MG
Naval Facilities Engineering Command
Southwest Division
1220 Pacific Highway
San Diego, California 92132-5190

APPROVAL OF FINAL FEASIBILITY STUDY (FS) FOR INSTALLATION RESTORATION PROGRAM SITES 2, 4, 8, AND 9, DATED MARCH 2004, NAVAL BASE VENTURA COUNTY, POINT MUGU, CALIFORNIA

Dear Mr. Gonzales:

The Department of Toxic Substances Control (DTSC) has reviewed the subject document. This FS evaluated remedial approaches and proposed the following remedial alternatives:

- For Site 2, Site 4 and Site 8, the remedial alternative is No Further Action.
- For Site 9, the remedial alternative is institutional land use controls to maintain current and future industrial land use only scenario.

The Navy has addressed DTSC's comments in this final document and DTSC approves the FS as written. DTSC looks forward to working with the Navy on the remediations at Point Mugu. If you have any question, please call Peter Chen at (714) 484-5431.

Sincerely,

Emad B. Yemut, P.E.
Unit Chief
Federal Facilities Unit "A"
Office of Military Facilities
Southern California Operations Branch
